

# 3832 Easy Close

*Brings drawers to a smooth, gentle close.*

## Ideas for residential applications

A child's room or baby's nursery is a great place to install the 3832EC. The soft-close feature brings drawers to a soft, gentle close, to keep things quiet during naptime and to help prevent pinched fingers. Who knows, it may even encourage kids to put away their toys.

*Shelves such as these offer storage for items that are accessed frequently, perhaps with one hand, while the other holds a child. Great for diapering supplies, receiving blankets, or cloths required for quick clean ups.*

*Think outside of the typical drawer box with a pull-out that provides easy access for little folks to help themselves to books or toys.*
